

Establishing a Clean Culture Throughout the Entire Workplace

Easy-to-Implement Solution to Signal Common Area Cleaning

To ensure the health and safety of your staff, breakrooms and other common areas need to be cleaned and sanitized thoroughly and frequently. These areas are used frequently by many people and cleaning during the workday is often haphazard and sporadic.

- Bright, high-visibility indicators alert staff that surfaces and appliances need to be cleaned
- Two-way communication enables verified completion of scheduled cleaning events
- Touch-free buttons actuate with deliberate motion, eliminating possible points of contamination
- Quick, easy installation with no intrusive alterations to infrastructure
- Collected data can be used for reporting and to ensure compliance
