RE: PFAS Statement of Compliance

PFAS (Per - and Polyfluoroalkyl Substances) are a broad class of fluorinated organic chemicals, often referred to as "forever chemicals," used in various industrial applications. Due to increasing awareness of potential health and environmental concerns, PFAS are receiving growing regulatory attention worldwide, however applicable PFAS requirements vary by jurisdiction and may include restrictions, reporting obligations, and disclosure requirements.

The following examples of PFAS is illustrative only and does not represent the full range of PFAS that may be subject to international and European Union (EU) regulations:

- **PFOS** (listed under the Stockholm Convention since 2009 and restricted under POPs Regulation)
- **PFOA** (listed under the Stockholm Convention and restricted under the EU POPs Regulation since July 2020)
- **PFHxS** (listed under the Stockholm Convention and restricted under the EU POPs Regulation in August 2023)

Banner Engineering Corp ("Banner") does not intentionally formulate PFAS into its products or use PFAS as processing chemicals in its manufacturing operations. Banner maintains a risk-based supply-chain due-diligence program designed to identify and minimize PFAS in purchased materials and components, including supplier inquiries and review of available supplier declarations and product information. If supplier information is incomplete, Banner continues its information-gathering efforts and evaluates its obligations using the best information reasonably available..

Based on Banner's knowledge and reasonable due diligence as of the date of this statement, Banner believes that it complies with the PFAS prohibitions, reporting obligations, and disclosure requirements applicable to its products. This statement is based on information reasonably available to Banner, including information provided by third-party suppliers, and is not an independent laboratory certification. No representation or warranty is made beyond the limited statements expressly set forth herein.

Sincerely,

A handwritten signature in blue ink that reads "John McMahon".
