Q2XLP and Q2XER Overview

The Q2X opposed and polarized retroreflective sensors offer excellent sensing performance in a miniature plastic housing which are easily integrated into tight spaces. The brass inserts provide stable mounting points, and the bright indicators provide user feedback of the sensor status.

Installation

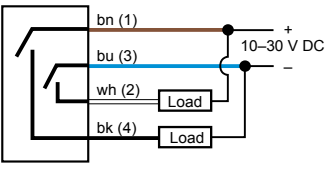

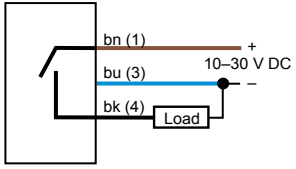

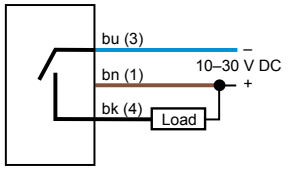

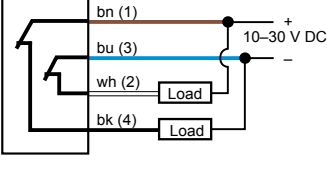

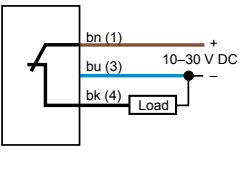

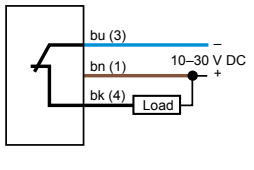

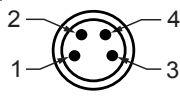

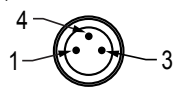

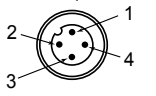

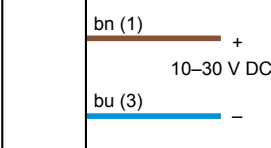

Mount the Device

1. If a bracket is needed, mount the device onto the bracket.
2. Mount the device (or the device and the bracket) to the machine or equipment at the desired location. Do not tighten the mounting screws at this time.
3. Check the device alignment.
4. Tighten the mounting screws to secure the device (or the device and the bracket) in the aligned position.

Q2XLP and Q2XER Wiring

Cabled wiring diagrams are shown. Quick disconnect wiring diagrams are functionally identical.

CAUTION: Observe proper ESD precautions (grounding) when connecting quick disconnect models.
