

# Reduce Wiring and Minimize Installation Time

Simple wire replacement is easy with SNAP SIGNAL

Ramping up to Industry 4.0 has never been easier. Speed-up and simplify installation by wirelessly communicating to any Modbus device using R70 Serial Data Radios. Information is effortlessly communicated over the air via a wireless communications network and terminated at the machine or an industrial controller. Monitor critical assets in a SNAP.

## SNAP SIGNAL

	Qty	Model	Description
	2	R70SR*MQ	Serial Data Radio
	2	PSW-24-1	Power Supply
	5	QM30VT2	Vibration and Temperature Sensor
	6	CSB-M1250M1250-T	Tee connector
	6	MQDEC3-506SS	Extension Cable
	5	BWA-BK-019	Curved Magnetic Mount for Vibration Sensor
	2	LMB30LP	Low Profile Serial Radio Mounting Bracket
